For multiple permitted establishments within one physical structure and under the same operation ownership, such as multiple departments within one retail grocery store, the permit holder or their designee may be any one person with supervisory authority over any department.

This item only addresses whether or not the permit holder or designee possesses a certification from an accredited program; this item does not evaluate whether or not the person-in-charge is properly performing the duties as described in the Food Code. Deficiencies in actual operations will be marked in the corresponding and appropriate section elsewhere on the report. It is not the intent of the report to penalize the facility twice for the same non-compliant observation.
